

Safer Internet Day

By Leo Makzal (Year 4)

Safer Internet Day

Children and adults get bullied online. On Safer Internet Day people tell other people how to act if they get bullied. On games and Social Media people get bullied the most, and people don't know how to act.

SMART

There is a way to remember how to be safe online. All you must do is to remember the acrostic for SMART.

Be smart on the internet

S SAFE Keep safe by being careful not to give out personal information – such as your full name, email address, phone number, home address, photos or school name – to people you are chatting with online.

M MEETING Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.

A ACCEPTING Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!

R RELIABLE Information you find on the internet may not be true, or someone online may be lying about who they are.

T TELL Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.
You can report online abuse to the police at www.thinkuknow.co.uk

When is Safer Internet Day

On the 6 February 2024 we celebrate and learn about Safer Internet Day

When Safer Internet Day started

On the 6 February 2004 Safer Internet Day came out. Because near when Safer Internet day was invented iPhone, iPads and computers were invented to. The modern-day iPhone was invented on June 29, 2007. The modern-day iPad and Computer was made on January 27, 2010.

What are hackers

Hackers are people that log into other people's electronics, and they find out all their secret information. People don't know how to get-rid of hackers and then get-rid of their electronics, and people keep hacking.

What to do

If you get an unkind message online stop playing the game that you are playing and call an adult. Your adult will cancel the game and you can play another game.

Stranger Danger

If someone calls you and you don't know who it is cut it off unless you 100% know the person. If you are chilling on the sofa and your BFF calls you to come to the local park, ask your adult to come with you, because your BFF might have dropped their phone on the floor and a stranger could have picked it up.
