

Y4 Q1 Autumn

Max and Abbie are playing a game. Max has a blue counter, Abbie has a red one. They are both at the start. In the game if you land on a space with an instruction, you must follow it. If the space is empty, you stay on it.

I want to win! I want to roll the biggest number. I hope I get a 6!

I want to roll a 2.

If they both roll what they want, who will be ahead? By how many spaces?

A large empty rectangular box with a red border, intended for the student to write their answer to the question above. In the top-left corner of the box is a small icon of a notepad and a red pencil.

What is the quickest way to win this game?

A large empty rectangular box with a red border, intended for the student to write their answer to the question above. In the top-left corner of the box is a small icon of a notepad and a red pencil.
