

Y4 Q1 Summer

Abbie and Max are playing snakes and ladders.

Why does Max say that the snake on 35 is worse to land on?

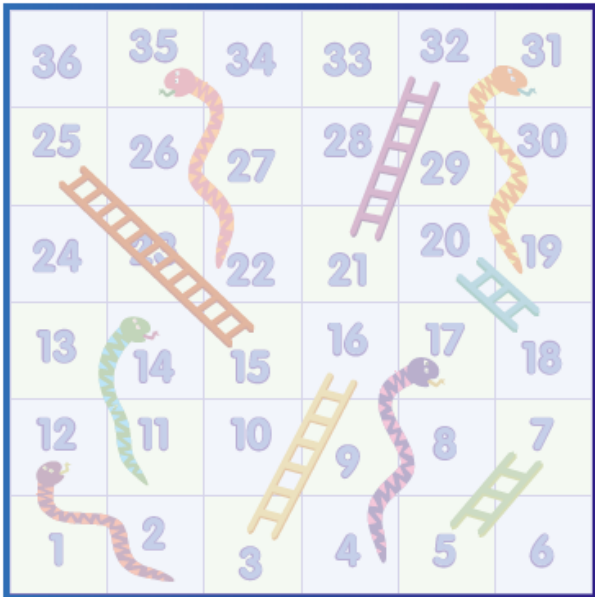

A large red-bordered rectangular box for writing an answer. In the top-left corner, there is a small icon of a notepad with a red pencil.

Which other snake is worse than the snake on 31? Show how you know this.

A large red-bordered rectangular box for writing an answer. In the top-left corner, there is a small icon of a notepad with a red pencil.

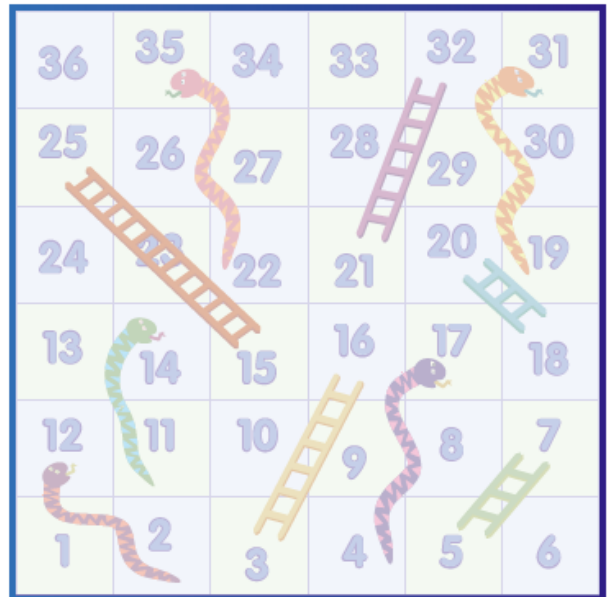

I landed on 31 and slid down to 19!

What is the quickest way Abbie can now win?

I landed on 35 and slid down to 22. It's ok though, Abbie is on 19 so I'm still ahead of her. I can win in fewer moves than she can.

Is Max right or wrong? Explain your answer.
